Jersey Shore Fishing Report

The local bite is blazing, and the variety keeps things interesting up and down the coast:

- Fluke (Summer Flounder) are stealing the spotlight in Barnegat Bay, the Manasquan River, and around the inlets. Outgoing tides have been especially productive with white Gulp, spearing, and squid doing serious work on the keepers.
- Seabass are still pounding the structure on wrecks and reefs. Early mornings are delivering the best action—get out there before the sun gets too high.
- Bluefish & Stripers are making a splash in the surf and the Point Pleasant Canal. Live eels and spot are your go-to if you're looking for some drag-screaming runs.
- Bluefish & Stripers are making a splash in the surf and the Point Pleasant Canal. Live eels and spot are your go-to if you're looking for some drag-screaming runs.
- Croakers & Kingfish are thick in the surf and bay waters—perfect for a laid-back family outing. Bloodworms and Fishbites are the ticket.
